Piyush Gupta

Business Analyst | SQL | Power BI | Excel | Python | Tableau | R |
MSc Business Analytics | Driving Data Decisions
Dundee, Scotland, United Kingdom

Summary

I'm an aspiring Business Analyst currently pursuing my MSc in Business Analytics at the University of Dundee, passionate about transforming data into strategic business insights. With strong technical skills in SQL, Python, R, Power BI, Tableau, and Excel, I specialise in data analysis, visualisation, and storytelling to support data-driven decision-making.

My academic foundation in Business Administration, combined with real-world internship experience in e-commerce, marketing, and HR, has shaped my understanding of both business processes and data-centric problem solving. I've worked on diverse projects such as market research, employee satisfaction studies, customer behaviour analysis, and emotional advertising impact, using tools like Power BI, Tableau, and Excel dashboards to present key insights.

I'm actively seeking Business Analyst or Data Analyst opportunities where I can contribute by:

Extracting and transforming data using SQL and Python

Performing statistical analysis with R

Creating interactive dashboards using Power BI and Tableau

Delivering reports and insights that influence business strategy

Collaborating across teams to solve complex business challenges

I am a fast learner and a team player, and I am driven by curiosity and continuous improvement. I am excited to bring data to life and make a measurable impact in dynamic business environments.

Let's connect! Open to full-time, graduate, or entry-level roles in Business Analytics, Data Analytics, or related domains.

Experience

McDonald's

Crew Member

February 2025 - Present (7 months)

Dundee, Scotland, United Kingdom

As a valued team member at one of the world's leading quick-service restaurants, I consistently deliver fast, friendly, and accurate service while contributing to operational efficiency and customer satisfaction.

Key Contributions:

Served an average of 300+ customers per shift, maintaining 95 %+ customer satisfaction ratings through efficient service and positive interactions

Streamlined front counter and drive-thru operations during peak hours, reducing average wait time by 25%

Ensured food safety and quality standards were met 100% of the time by following strict hygiene and preparation protocols

Assisted in onboarding and training new staff, enhancing team productivity and consistency

Recognised for reliability and punctuality, contributing to smooth team coordination and daily operations

Skills Gained:

Customer service | Time management | Team collaboration | Conflict resolution | Cash handling | Adaptability in fast-paced environments

Fiverr

Freelance Business analyst

March 2024 - Present (1 year 6 months)

The iOutlet

Business Analyst

May 2025 - July 2025 (3 months)

Plymouth, England, United Kingdom

As a Business Analyst Intern at The iOutlet, a leading UK-based refurbished tech e-commerce company, I worked on a high-impact project focused on optimizing digital marketing and social media performance. My key responsibilities included:

Conducted in-depth social media analytics across platforms like Facebook and Instagram to evaluate engagement, click-through rate (CTR), and conversion metrics.

Analyzed campaign performance data (CPC, CPM, ROAS) and identified top-performing ads and areas for improvement.

Delivered a detailed ROI and correlation report, linking engagement to sales performance and customer behavior.

Researched and assessed the potential of influencer marketing, including platform fit, audience alignment, and projected ROI.

Benchmarked competitors using public platforms such as Meta Ad Library, Reddit, and Instagram to inform strategy.

Created a visual performance dashboard and PowerPoint report for internal stakeholders.

This experience enhanced my practical skills in marketing analytics, business intelligence, and data visualization, while strengthening my ability to draw actionable insights from complex datasets

AIM India

MARKETING AND HR STRATEGIES

December 2022 - January 2023 (2 months)

Delhi, India

Completed a cross-functional internship, delivering measurable outcomes in both marketing and HR domains.

Generated high-quality leads and contributed to the sales pipeline by actively promoting the company's financial product, engaging with over 50+ potential clients, and refining persuasive communication strategies.

Strengthened client relationship skills by managing follow-ups and maintaining ongoing engagement with existing customers, boosting client retention and satisfaction.

Gained practical exposure to core HR functions including CTC calculation, payroll processing, and recruitment workflows—contributing to campus placement drive coordination and candidate screening activities.

Developed a strong foundational understanding of corporate taxation policies and their business implications.

Demonstrated adaptability by applying training learnings in live marketing campaigns and HR operations within a fast-paced professional setting.

This internship sharpened my ability to bridge business goals with people management and strategic communication, preparing me for dynamic roles in business and analytics.
